<b>Task completion</b>	Unfulfilled	Poor	Fair	Good	Excellent
No noted evidence.		Due to lack of planning on the students part, the task was very chaotic and unorganized.	The task was accomplished but last minute details weren't taken care of until the end of the project.	Students forgot to address one or two items. Otherwise everything "flowed" well and was successfully accomplished.	Details were in line and nearly everything went as planned. Everything that needed to be accomplished was done.
